### ENERGY PROJECT UPDATE

The Church renovations have now started.

Last week the church was cleared and all electricity cables were removed from the walls. This week specialist contractors will be removing the wall panels and radiators to start preparing the church for the new heating system.

All services and prayer meetings will take place in the Upper Hall until the beginning of October.

There will inevitably be some disruption and inconvenience during the building work and we ask for your patience and understanding during this period of change. The improvements to the church and infrastructure of our buildings will be well worth it!
